

# DAWOOD KAMAR

SOFTWARE DEVELOPER

## SUMMARY

A passionate Software Developer with a strong foundation in web application development. My hands-on experience with JavaScript, CSS, Next.js, and React.js has equipped me to craft solutions that resonate with users. My dedication to innovation, combined with excellent communication and teamwork skills, positions me to thrive in dynamic, collaborative environments. Always eager to tackle new challenges, I'm looking for opportunities where I can leverage my skills to make a meaningful impact.

## SKILLS

- Web Development
- Object-Oriented Programming
- Frameworks & Libraries
- Data Structures
- Version Control (e.g., Git)
- Design & Engineering
- Analytical Skills
- Problem Solving
- Project Management & Implementation
- Communication (Verbal & Written)
- Teamwork
- Attention to Detail
- Client Needs Assessment
- Innovation
- Self-motivated

## EXPERIENCE

### FOUNDER & SOFTWARE DEVELOPER

DK Services / Sept 2018 – Present

As the founder of DK Services, a fleet maintenance company, I've balanced both operational management and technological innovation. In the past year, I embarked on a transformative project: [DK-Services.vercel.app](https://dk-services.vercel.app)

- **Web Application Development:** Initiated the design and development of a comprehensive work order management web application to streamline business operations. This application, which is actively used by mechanics daily, features:
  - User authentication system.
  - Work order form creation and management.
  - Data storage and management using Prisma, MySQL, and PlanetScale.
- **Tech Stack Proficiency:** Leveraged a diverse tech stack including Next.js for server-side rendering, React.js for UI components, and CSS for styling.
- **Version Control:** Diligently managed project iterations using Git and GitHub, ensuring smooth development cycles.  
[github.com/DawoodKamar/DK-services](https://github.com/DawoodKamar/DK-services)
- **Transport Fleet Maintenance:** Alongside my software development focus, I've actively managed and maintained our customers' fleet, ensuring efficiency, customer service, and operational excellence.

### WEB DEVELOPMENT

Freelance / Jan 2023 – Present

I've channeled my passion for design and functionality into creating tailored web solutions that cater to diverse audiences. From gaming communities to business platforms, my projects reflect a blend of creativity and technical proficiency:

- **Blog Website - CODScope:** Conceived, designed, and deployed a dedicated blog for "Call of Duty" enthusiasts. Utilized WordPress and Elementor for design flexibility, and hosted on Bluehost.  
View Project: [Codscope.com](https://codscope.com)
- **Business Website for Sharp Truck Trailer Repair:** Developing a business-centric website for Sharp Truck and Trailer Repair. The project's primary focus is on ensuring robust SEO practices to enhance visibility and drive organic traffic. Project is using html, Tailwind and JavaScript.

TECH SKILLS

- Java
- JavaScript
- ReactJS
- OOP (Object-Oriented Programming)
- GIT & Github
- CSS & HTML
- NextJS
- Python
- MySQL
- NodeJs
- Tailwind CSS
- Prisma
- Clerk Auth
- PlanetScale

LICENSES & CERTIFICATIONS

- 310J Certified- Truck Trailer Service Technician
- WHMIS Training
- Worker Health and Safety Awareness

EDUCATION

**BACHELOR OF SCIENCE (B.SC.), COMPUTER SCIENCE**  
IU International University of Applied Sciences / Jan 2022– Present

- Object-Oriented Programming with Java
- Data Structures
- Introduction to Web Programming
- Computer Architecture

**CS50: INTRODUCTION TO COMPUTER SCIENCE**  
Harvard University / Jan 2023

- C Programming
- Algorithm Efficiency
- Python
- SQL
- Web Development
- Flask

**ADVANCED DIPLOMA, ENVIRONMENTAL TECHNOLOGY**  
Durham College / 2015 – 2016

- Data Analysis
- Tech Integration
- Project Collaboration

**BACHELOR OF SCIENCE (B.SC.), CHEMISTRY**  
Toronto Metropolitan University / 2009 – 2014

- Research & Development
- Analytical Tools
- Problem Solving
