# DAWOOD KAMAR

SOFTWARE DEVELOPER

SUMMARY

I'm a software developer who's skilled at creating web apps, most notably a work order management system that contributed to a 20% profit increase at DK Services. I have an excellent background with Java and I'm experienced with frontend tech like React.js. I work well with different teams and love coming up with practical solutions. Always keen to learn and improve. Fluent in English and excited to work on new innovative projects.

Jan 2022 – Present

BACHELOR OF SCIENCE (B.SC.), CHEMISTRY SCIENCE
Toronto Metropolitan University
2009 - 2014

EXPERIENCE

FLEET MAINTNANCE & SOFTWARE DEVELOPER
DK Services / Sept 2018 – 2024

As the founder of DK Services, a fleet maintenance company, I've balanced both management and tech innovation. One of my key initiatives has been creating and launching our Web Application: https://dk-services.vercel.app/

- **Web Application Development**: Initiated the design and development of a comprehensive work order management web application to streamline business operations. This application, which is actively used by mechanics daily contributed to a 20% increase in company profit. Features of the application include:
  - User authentication system.
  - Work order form creation and management.
  - RESTful API integration for seamless data transactions.
  - Data storage and management using Prisma, MySQL, and PlanetScale.
  - Leveraged a diverse tech stack including HTML5, CSS3, JavaScript, and React.js for intuitive UI components, and Next.js for server-side rendering.
  - Managed project iterations using Git and GitHub
- **Transport Fleet Maintenance**: Alongside my software development focus, I've actively managed and maintained our customers' fleet, ensuring efficiency, customer service, and operational excellence.

WEB DEVELOPMENT
Freelance / Jan 2023 – Present

I have a passion for building websites that look good and function great. Ive built projects that target gamers and others that are business centric. These projects show creativity and technical skills.

- **Blog Website - CODScope**: Built a dedicated blog for "Call of Duty" enthusiasts. Utilized WordPress and Elementor for design flexibility, and hosted on Bluehost.
